# Our Histroy

BoCheng Automotive Technology is a family owned business since 2012. We started our business at Taizhou City where is gathering auto& auto parts manufacturers.

Under this background facing different competitors we are growing fast .Right now ,we have one Research &Design Center in Shanghai, and Marketing & Exporting office in Hangzhou, each of them based our factory in Taizhou .

*“ We want to be the best Remanufactured air suspensionproducer in China ”*

-----NiJun CEO of BOCHENG

# Our Mission

we are professional manufacturer of all types of air suspension shock, air suspension spring, air compressor pump and valve block. Our remanufacturing process is sustainable from beginning to end. We take high quality parts and give them a new life, conserving thousands of tons of resources. We also hold to this core value by recycling the waste and byproducts produced during the remanufacturing process. Our Mission is to renew the suspension to be origin even better than O.E performance .

# Our Statement

Bocheng insists on being customer-centric and guaranteeing a perfect quality system. The company has established a complete quality assurance system in accordance with ISO14000 environmental system certification and TS16949 system specification requirements. As the first one to give the concept of "Suspensions without rework" "replacement of original parts", Relying on sustainable and stable product quality, and an advantageous price policy, quickly out of the Zhejiang market, overlapping the Yangtze River Delta market and business extended across all of the country, our goal in 2020 is to allow 50,000 shocks to be safely working on the road. To make the car drive better.

Remanufactured Air Suspension Struts are engineered to return the suspension to O.E. performance, but at a fraction of the cost. Original designs are scrutinized for potential improvement and, where applicable, design upgrades are implemented to produce a more durable product than the original. As a direct-fit component, ease of installation is guaranteed. Each unit undergoes extensive performance testing to ensure reliable, consistent performance. we are offering repairing and exchanging service and free trial service in domestic market ,for international we are keeping on improve our service standard to offer more for all customers .
